As breeders we strongly believe in well-rounded, deeply loved dogs that are an integral part of the family. Therefore, we have been active in several dog events, including fly ball, trick titles, the Canine Good Citizen Program, Dog Scouts, rally, and conformation. Mariela is a geneticist and is actively involved in the APLSA's health committee. As responsible dog breeders we aim to produce the healthiest most beautiful, and best tempered Polish Lowland Sheepdogs possible. We are committed to the following:

- Educating ourselves, our community, and our perspective puppy buyers.
- Always putting the dog's welfare first.
- Adhering to the best breeding practices and to the AKC standard to improve the breed.
- Liaising with breeders and veterinary professionals to ensure that we make the soundest breeding decisions possible
- Participating in social and competitive events to introduce people to the breed.
- Always being unequivocally honest about our dogs
- Finding loving homes for every puppy born; providing a lifetime of support for our extended PON de Rosa family.
