We are a small breeding kennel in North Carolina. We recently retired and moved from the cold of Connecticut to the warmth of the South! We have been owned by our Polish Lowland Sheepdogs ("PONs") for the past 25 years and were active in the New England show circuit when we lived in Connecticut.

If you are interested in the breed please do give me a call. I am happy to discuss the breed's attributes and personalities. All our breeding stock has been shown to championships in AKC venues. We produce only a few litters a year but strive for happy and healthy pups. Every pup goes home with its AKC registration, microchip, first vaccinations, physical exam, grooming gifts and articles on puppy behavior and training. And every puppy is started on house training and his/her personality matched to your living environment. We hope to make the right match for both the pup and you.
